Reclaiming Indian Control of Indian Education...
Holistic Education for Pre-Kindergarten to Grade 12

The 10th Annual Western Canada First Nations Education Administrators Conference will include discussions centered on challenges that face Directors and Education Boards, and global issues such as governance, finance, and effective education for First Nations. The sharing and learning among facilitators and participants will focus on resolving some of these challenges from a Western Canadian perspective, and improve outcomes for First Nations students. Keynote speakers and presentations will provide insight, inspiration and opportunity to affect positive change for the future of First Nations education.

There will also be opportunities at the Conference to support a worthy cause. The charity recipients of the proceeds of the Gala Evening will be the "ISKWEWUK E-WICHIWITOHK - Women Walking Together" fund for investigating files of missing and murdered women and children.
