Unique Driftwood Art

Fishing for Wood

Each spring, our Creator blesses my family with amazing driftwood that floats along our home by the Ottawa/ Outaouais River. We started by gathering some to use as firewood, and then we began displaying a few of the more interesting pieces as ornaments that decorate the flower garden and rivers edge for our friends, family and boaters to appreciate.

As more and more driftwood passed by, I noticed some of the wood was extremely interesting and unique, so I began putting my artistic side to work by creating swings, well skirts, hangers for feeders and bird houses, furniture, lamps and driftwood wall art.

Soon, Rob&Wood was born on the concept to recycle and reuse, while cleaning up the environment, protecting Mother Earth and creating unique and beautiful pieces of driftwood art.

My wife, Sylvie, and I love going out on our expeditions in search of these special offerings from our Creator.
